

# Standalone Manual Duplicators

## About Microboards

Originally founded in 1989, Microboards Technology has been growing rapidly along with CD-R/DVD-R technology for the past 14 years. Microboards is a manufacturer and distributor of quality duplication products.

Microboards is in a unique position to serve the needs of various industries with CD-R and DVD-R technology. As a manufacturer and distributor, Microboards has the ability to offer products more tailored to the demands of its customers.

Our strong relationships with prominent manufacturers such as Pioneer, Taiyo Yuden, Hoei Sangyo, and many others enable us to provide the latest technology, service and support above and beyond the typical company.
