

Standalone High Performance CD Recordable Duplication

Features:

- Standalone system; no PC required
- 150 disc capacity
- Intelligent "Menu Mentor" navigation scheme; minimizes operator training, errors
- Unique FIFO Disc Up Stacker
- Unattended Batch Job Processing
- Separate integrated CD Reader for maximum throughput
- Support for CD-R / CD-RW
- Field Upgradeable using read-in CD-R
- Minimal Field Maintenance Required

The Apollo II is a high performance, standalone CD-R Duplication system featuring the ingenuity of MicroBoards Technology's Champion Series of CD / DVD Publishing systems. With it's 150 disc capacity, intuitive menu navigation, and sleek office environment aesthetics, Apollo II offers users unprecedented performance for a variety of CD Duplication requirements. The Apollo II's Batch Job Processing capability, combined with it's unique FIFO Disc Up Stacker, provides users with a highly functional and yet easy to use system. The system utilizes high speed 12X recording technology for fast throughput, and is integrated with a 6 GB hard drive for maximum storage of image files. Apollo II's precision gravity fed singulator system presents no operator safety hazard, and allows users to add discs to the Input Hopper at any time during the duplication process. Applications well suited for Apollo II include Pro Audio, Multimedia, Government / Education, Software Development, Data Storage and Interchange, and many others. Please contact your MicroBoards Technology, LLC Account Manager for details.

Technical Specifications:

- **Dimensions:**
15"H X 27" W X 14"D
- **Weight:** 33.3 lbs
- **Hopper Capacity:** 150 Discs
- **Recorder Speed:** 12X
- **Number of Recorders:** (1)
- **Reliability:**
MSBF > 50,000
MTBF > 10,000 Hrs
MTTR < 30 minutes
- **Operating Temperature:**
42 to 86 F
- **Shock:** Operating > 5G
(11 ms Max.)
- **Humidity:**
Operating 20 % to 80 % RH

Ideal for Overnight Operation!
