

DSR DVD SERIES
MICROBOARDS

The DSR DVD Copier

The DSR DVD Series is Microboards's multi-drive DVD-R/CD-R duplicator employing the use of General Purpose DVD-R recorders. The unit supports both standalone and computer-connect operation.

Configurations of one to eight recorders are available to meet individual production requirements. An intuitive, menu-driven display and 2-button control interface provide simple one-touch operation for the novice user while giving access to advanced features for the professional.

An optional Firewire (IEEE 1394) port allows you to connect from a PC or Mac to a recorder in the system for burning your DVD/CD master*. The hard drive comes standard with the system and allows the user to archive an image or perform CD track extraction for CD audio compilations.

Features:

- Stand-Alone DVD-R / CD-R duplicator
- One Touch duplication
- Speed selectable (1x, 2x, 4x for DVD-R and 4x, 8x, 16x for CD-R)
- Copy and Verify
- Direct Master Feature: Optional Firewire Connection to PC or Mac for DVD/CD mastering*
- Hard drive comes standard for DVD/CD image archival and CD track extraction for audio compilation CDs
- Ergonomic placement of Remote Interface Module
- Simulation mode to ensure recording stability
- Easy-to-read, two-line display for status and error reporting
- Updates easily installed through DVD/CD reader

* Firewire (IEEE 1394) interface on PC or Mac system and recording software required.

Model Number	Recorders	Discs Per Hour*	
		CD	DVD
DSR -DVD 4161	1	12	4
DSR -DVD 4162	2	24	8
DSR -DVD 4163	3	36	12
DSR -DVD 4164	4	48	16
DSR -DVD 4165	5	60	20
DSR -DVD 4166	6	72	24
DSR -DVD 4167	7	84	28
DSR -DVD 4168	8	96	32

*Figures Assume a fully recorded disc (700 MB or 4.7 GB)

The DSR DVD series comes with a one year warranty. In addition, Microboards Technology offers the MicroCare Warranty Service Program for DSR DVD users, minimizing downtime or repair costs.
